Our company, Ankon Energy Construction Limited Company started its activities in 2013 in the fields of solar energy MV Panel supply, energy transmission lines and energy production with its professional and dynamic staff.

Our company, OMSA GROUP, was established by partners of Ankon Energy Construction Limited Company in 2021. The main field of OMSA GROUP activity is children's playground equipments, playground elements, outdoor fitness equipments, floor rubbering, urban equipments and traffic equipments. Moreover our brand in this field is Panda Playtime. There are also many production activities among our group companies.

As our company, we produce all products with our experienced staff in accordance with today's conditions and technology, and we export to more than 40 countries.

Panda Playtime, "Now is play time." with its motto, it aims to reach a concept that provides play, mobility, development, safety, sociability, sensitivity and innovation in playground and social areas. For this reason, we transform dynamic lines into exciting constructions with rich material content in our designs. Moreover, our priority in all the products we produce is quality and originality.

Every new idea is the starting point for us and we show the same care at every stage from production to use. We continue to work for today and the future with the knowledge, experience and experience we have gained in the past. You can examine our products, which are produced in accordance with international standards and have TUV, EN, ISO certificates, in our catalog.

We are here to take place in every corner of the world with the same quality and excitement and we are with you.

Now is play time...

ABOUT US

À PROPOS DE NOUS

Notre société, Ankon Energy Construction Limited Company, a démarré ses activités en 2013 dans les domaines de la fourniture de panneaux solaires MT, des lignes de transport d'énergie et de la production d'énergie avec son personnel professionnel et dynamique.

Notre société OMSA GROUP a été créée en 2021 par les partenaires d'Ankon Energy Construction Limited Company. Le principal domaine d'activité d'OMSA GROUP est l'équipement d'aires de jeux pour enfants, les éléments d'aires de jeux, les équipements de fitness en plein air, les revêtements de sol, le mobilier urbain et les équipements de circulation. De plus, notre marque dans ce domaine est Panda Playtime. Il existe également de nombreuses activités de production parmi les sociétés de notre groupe.

En tant qu'entreprise, nous fabriquons tous nos produits avec notre personnel expérimenté conformément aux conditions et à la technologie d'aujourd'hui et exportons dans plus de 40 pays.

Panda Playtime, "Maintenant, il est temps de jouer." Avec sa devise, il vise à atteindre un concept qui offre jeu, mobilité, développement, sécurité, sociabilité, sensibilité et innovation dans les espaces de jeux et de sociabilité. Pour cette raison, nous transformons des lignes dynamiques en structures passionnantes avec un contenu matériel riche dans nos conceptions. De plus, notre priorité dans tous les produits que nous fabriquons est la qualité et l'originalité.

Chaque nouvelle idée est pour nous le point de départ et nous montrons le même soin à chaque étape de la production à l'utilisation. Nous continuons à travailler pour aujourd'hui et pour l'avenir avec les connaissances, l'expérience et l'expérience que nous avons acquises dans le passé. Vous pouvez examiner nos produits qui sont fabriqués conformément aux normes internationales et qui ont des certificats TÜV, EN, ISO dans notre catalogue.

Nous sommes là et à vos côtés pour avoir lieu aux quatre coins du monde avec la même qualité et la même émotion.

Maintenant c'est l'heure du jeu...

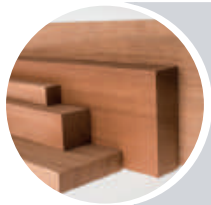

SCANDINAVIAN PINE : Structure, lack of resin and lengths are preferred and its polishing feature is very good.

PIN SCANDINAVE: la structure, le manque de résine et les longueurs sont préférées et sa caractéristique de polissage est très bonne.

SIBERIAN PINE : Can be processed easily thanks to its structure and problems such as bending and warping are not encountered. In this way, it provides a long-lasting use.

Grâce à sa structure EN PIN SIBÉRIEN, il peut être facilement traité et les problèmes tels que la flexion et la torsion ne sont pas rencontrés. De cette façon, il offre une utilisation durable.

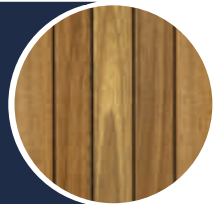

SAPELE : Interior wood varies between yellow and red brown depending on the type. Its color at the time of cut darkens to a certain extent with the effect of air and over time. It is a tightly structured, less flexible wood that can be processed easily and cleanly.

Le bois intérieur en SAPELLI varie entre le jaune et le brun rouge selon le type. Sa couleur au moment de la coupe s'assombrit un peu sous l'effet de l'air et avec le temps. C'est un bois compact, moins flexible, qui peut être traité facilement et proprement.

IROKO : Is resistant to natural conditions such as water, humidity and sun, and due to these properties, it is also used on parquet, boats, yachts, ships and decks. It is a type of wood that is especially preferred in outdoor furniture.

L'IROKO, qui résiste aux conditions naturelles telles que l'eau, l'humidité et le soleil, est également utilisé sur le parquet, les bateaux, les yachts, les navires et les ponts en raison de ces propriétés. C'est un type de bois qui est particulièrement préféré dans les meubles d'extérieur.

MARANTI : Is one of those hardwoods that is easy to work with. It is easily machined, cut, milled and sandblasted. Due to a certain amount of silica in wood, marant has a dull effect on woodworking equipment.

MARANTI est l'un des bois durs faciles à traiter. Il est facilement usiné, coupé, meulé et sablé. En raison d'une certaine quantité de silice dans le bois, le marant a un effet mat sur les équipements de travail du bois.

MATERIALS

www.pandaplaytime.com

ROBINIA : Is durable and hardwood, especially suitable for outdoor use. It also has excellent technical characteristics and a decorative appearance.

LE ROBINIER est un bois durable et dur, particulièrement adapté à une utilisation en extérieur. Il possède également d'excellentes caractéristiques techniques et un aspect décoratif.

BAMBOO : Is resistant to external weather conditions and can retain its natural color for a long time. Therefore it is preferred in outdoor furniture.

LE BAMBOU résiste aux intempéries extérieures et peut conserver sa couleur naturelle pendant longtemps. Par conséquent, il est préféré dans les meubles d'extérieur.

WERZALIT : Is obtained by turning the chipped wood into fine sawdust, mixing it with glue and chemical substances, and shaping it at high pressure and temperature. They can be made in different patterns and can be used in every field.

LA WERZALIT est obtenue en transformant le bois déchiqueté en sciure fine, en le mélangeant avec de la colle et des produits chimiques et en le façonnant à haute pression et température. Ils peuvent être fabriqués dans différents modèles et peuvent être utilisés dans tous les domaines.

COMPOSITE : Has a structure that is not affected by heat and cold and is resistant to impacts for a long time and its usage areas are widespread.

LE COMPOSITE a une structure qui n'est pas affectée par la chaleur et le froid, résistant aux chocs pendant une longue période, et ses domaines d'utilisation sont assez courants.

PLYWOOD : Is a building material obtained from different wood species, generally used in the furniture and construction industry. It is produced using different tree species such as beech, pine, hornbeam.

LE CONTREPLAQUÉ est un matériau de construction obtenu à partir de différentes essences de bois, généralement utilisé dans l'industrie du meuble et de la construction. Il est produit à partir de différentes essences d'arbres telles que le hêtre, le pin, le charme, le bouleau, le peuplier.

HPL PANNEL : Is laminate type produced by pressing the impregnated decor and kraft papers, which can be produced on various sizes and different surfaces. It also has physical properties such as fire resistance, abrasion and scratch resistance.

PANNEAU HPL Il s'agit d'un type de stratifié produit en pressant des décors imprégnés et des papiers kraft qui peuvent être produits en différentes tailles et sur différentes surfaces. Il possède également des propriétés physiques telles que la résistance au feu, à l'abrasion et aux rayures.

HDPE PANNEL : Have a high density structure, can be shaped in accordance with all activities of children with the CNC Router . The panels, which are resistant to heat, moisture and impacts, are 19 mm thickness.

PANNEAU PEHD Les panneaux, qui ont une structure à haute densité, peuvent être façonnés en fonction de toutes les activités des enfants avec le routeur CNC. Les panneaux, résistants à la chaleur, à l'humidité et aux chocs, ont une épaisseur de 19 mm.

COCOWAVE ROPE SWING : Measures 16 cm x 16 cm and with its size and appearance, it is for children to move safely while sitting, standing and swinging.

LIBÉRATION DU FIL DE COCOWAVE Il mesure 16 cm x 16 cm et avec ses dimensions et son aspect, il permet aux enfants de se déplacer en toute sécurité en position assise et debout.

16 mm STAINLESS STEEL CORE ROPE : That is preferred in climbing elements is coated with polyester. It is suitable for long-term use because it is resistant to external weather conditions.

LA CORDE, qui est préférée dans les produits d'escalade, est recouverte d'une âme en acier polyester de 16 mm. Il convient à une utilisation à long terme car il résiste aux conditions météorologiques extérieures.

ALUMINUM CONNECTOR : That is used in rope climbing products, it has a stainless and unbreakable structure.

CONNECTEUR EN ALUMINIUM Les attaches utilisées dans les produits d'escalade sur corde ont une structure inoxydable et incassable.

MATERIALS

www.pandaplaytime.com

PLASTIC INJECTION : That produced spare parts are resistant to breakage and are preferred in outdoor playgrounds and sports equipment.

Les pièces de rechange produites par INJECTION PLASTIQUE sont résistantes à la casse et sont préférées dans les aires de jeux extérieures et les équipements sportifs.

POLYETHYLENE : Which are baked in molds connected to rotation machines, are produced with the latest technology in rotation and injection blow molding machines.

POLYÉTHYLÈNE les produits en polyéthylène cuits dans des moules reliés à des machines de rotation sont fabriqués avec les dernières technologies en matière de machines de moulage par rotation et injection-soufflage.

Rubber surfaces are produced using EPDM granules and SBR granules. In this way, it has a softer structure. In addition to being durable and soft, it is also the right choice in terms of aesthetic appearance. Thanks to its UV resistance, it preserves its colors for a long time and has red and green options.

It has been specially designed to prevent slipping even on wet floors. So it is safe for players and minimizes the risk of injury, especially recommended for use in children's playgrounds. Rubber tile surfaces are easy to install and dismantle, also require minimal cost and effort because they do not require heavy materials and machinery during application.

TRAFFIC

Body and reflective tapes with TS EN 13422 + A1 standard
Flexible, unbreakable, long-lasting, shock-resistant body with %100 original TPU raw material
Aesthetic appearance and extra strenght with special sub-pattern design.
Brightness and long-lasting color resistance thanks to UV-blended special color mix.
Temperature resistance between $-20C^{\circ}$ / $+ 60C^{\circ}$.
Application to floor with 10x110mm lag bolts and $\varnothing 16$ mm plastic anchor.
Traffic signs, handles and lamps can be easily assembled without adapters.
Fields of application; It is suitable for use in urban and inter-urban roads, stripe separation, working-maintenance-repair and all areas which require traffic and pedestrian safety.

TRAFFIC SERIES PVC TRAFFIC CONES (OCTAGONAL)

Brightness and long-lasting color resistance thanks to UV-blended special color mix.

Chain passing channel.

Traffic signs, handles and lamps can be easily assembled without adapters.

Fields of application; It is suitable for use in urban and inter-urban roads,

stripe separation, working-maintenance-repair and all areas which

require traffic and pedestrian safety.

TRAFFIC SERIES

25 CM START-STOP SPEED BUMP

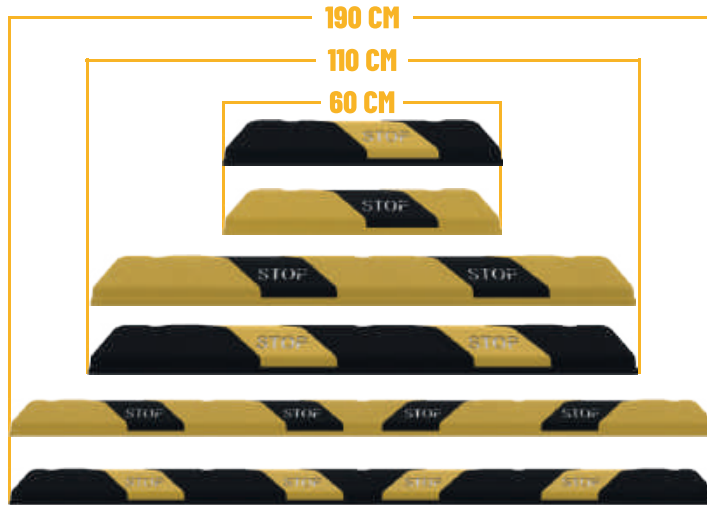

Bi-directional cat eyes.
Safe transition with stylish design.
6 warning cat eyes on the surface.
Impact resistant.
Mounted with $\varnothing 16$ anchor / $\varnothing 10 \times 110$ mm lag screw.
Temperature resistance between -20C° / $+ 60\text{C}^{\circ}$.
Application field; It is suitable for use in school fronts, intersections and all areas which requires the speed limits to be lowered.

30 CM CAT EYED SPEED HUMP

Bi-directional cat eyes.
Safe transition with stylish design.
6 warning cat eyes on the surface.
Impact resistant.
Mounted with $\varnothing 16$ anchor / $\varnothing 10 \times 110$ mm lag screw.
Temperature resistance between -20C° / $+ 60\text{C}^{\circ}$.
Application field; It is suitable for use in school fronts, intersections and all areas which requires the speed limits to be lowered.

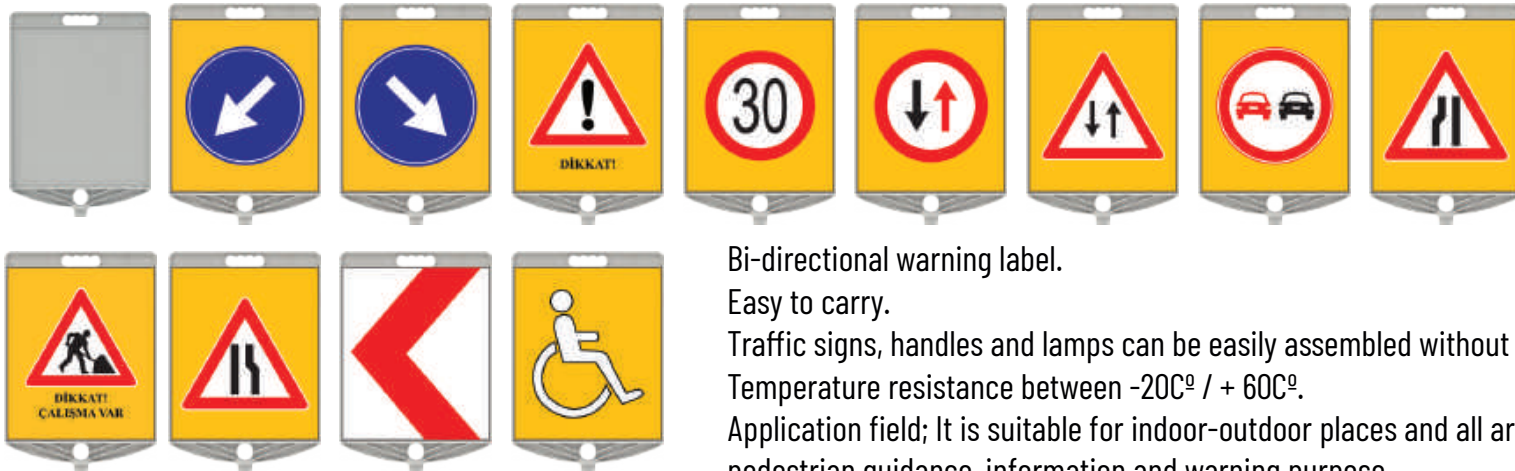

Bi-directional reflective tapes.
Ultra impact resistand with special design.
Mounted with Ø16 anchor / Ø10x110 mm lag screw.
Temperature resistance between -20C° / + 60C°.
Application field; It is suitable for use in urban and interurban roads,
bike roads, stripe separation, parking lots and to limit parking areas.

RECTANGULAR PRINTED SIGNS

Bi-directional warning label.
Easy to carry.
Traffic signs, handles and lamps can be easily assembled without adapters.
Temperature resistance between -20C° / + 60C°.
Application field; It is suitable for indoor-outdoor places and all areas for
pedestrian guidance, information and warning purpose.

TRAFFIC SERIES FOLDING WARNING SIGNS

Bi-directional warning label.

Easy to carry.

Foldable body.

Temperature resistance between $-20C^{\circ}$ / $+ 60C^{\circ}$.

Application field; It is suitable for indoor-outdoor places and all areas for pedestrian guidance, information and warning purpose.

RAUND PRINTED SIGNS

Bi-directional warning label.

Easy to carry.

Foldable body.

Temperature resistance between $-20C^{\circ}$ / $+ 60C^{\circ}$.

Application field; It is suitable for indoor-outdoor places and all areas for pedestrian guidance, information and warning purpose.

PANDA

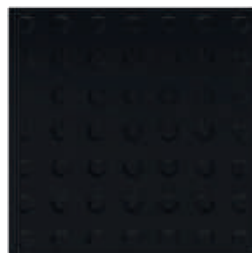

ROAD BUTTONS

Round and rectangular options.
Red and white cat eyes.
Impact Resistance.
